"Every sound you hear every feeling in this song
comes from the life we are living.
The entire project was created on a mobile phone,
with the limited resources available to us.
This song is a message to everyone who sleeps in peace.
I invite musicians, orchestras, choirs, and artists around the world
to perform HUMMING and help share our story-so the world can hear
what we hear and feel every night".

Ahmed Abu Amsha
Released 11 July, 2026.
